Plagiarism has never been so easy. The Internet now makes it easy to find thousands of relevant sources in seconds, and just a short time period plagiarists can find, copy, and paste together an entire term paper or essay. Because a good deal of of the material online is produced by other students,

It is based on the Internet. Even though the Internet seems to work in the plagiarist's favor.

Search engines can be useful for tracking down suspect passages, but even they have their limitations, given the number, variety, and password-protected nature of many websites. Even where search engines do prove useful, manually searching the Internet for matches of hundreds of

ABSTRAK: Pembangunan ekonomi yang saksama merupakan elemen penting untuk mencapai keadilan dan kesaksamaan dalam masyarakat yang terdiri daripada berbilang kaum. Realitinya, Malaysia merupakan sebuah negara yang mempunyai masyarakat yang berbilang kaum, berbilang agama dan pelbagai budaya, di mana ia menuntut konsep keadilan dan kesaksamaan yang berbeza daripada negara-negara lain, terutamanya negara-negara yang mempunyai masyarakat yang homogen. Undang-undang tertinggi negara ini meletakkan Islam sebagai agama rasmi negara dan membenarkan dua sistem perundangan yang berbeza untuk wujud tidak bertindih antara satu sama lain. Dua sistem perundangan yang berbeza merupakan perundangan sivil dan syariah. Namun begitu apabila berkaitan dengan aspek kewangan, Malaysia merupakan sebuah negara yang mewujudkan dua sistem ekonomi yang berbeza iaitu sistem kewangan Islam dan sistem kewangan konvensional. Dengan merujuk kesusasteraan yang melibatkan pembangunan perbankan Islam dan kes-kes perbankan Islam, perbincangan dalam artikel ini akan merumuskan perkembangan sistem perundangan di Malaysia dan kes-kes yang berkaitan (di United Kingdom dan Amerika) serta implikasinya untuk meningkatkan pemakaian undang-undang perbankan Islam kepada pengguna tanpa mengira kaum dan agama.
