TNB awards RM37m works to HeiTech Padu subsidiary

HEITECH Padu Bhd's (HeiTech) subsidiary, Duta Technic Sdn Bhd (DTSB), has been awarded a contract worth RM37.29 million by Tenaga Nasional Bhd (TNB) to build the PMU 132/33KV MRT Semantan (2x90MVA) in Kuala Lumpur.

In a filing to Bursa Malaysia yesterday, HeiTech noted the contract involves civil and structural works and high voltage electrical equipment, including retrofitting

works at remote end, manufacturing, inspection, testing, delivery, installation and construction.

The contract is for a period of 602 days commencing from Aug 12, 2016 to April 5, 2018.

The proposed transaction will not have any material effect on HeiTech Group's net asset for the financial year, ending Dec 31, 2016, and is expected to contribute positively to the future earnings of HeiTech.
