## TNBES-METROSPHERE VENTURE

# JV plans 4MW hydropower plant in Terengganu

**KUALA LUMPUR:** Tenaga Nasional Bhd's subsidiary, TNB Energy Services Sdn Bhd (TNBES), has signed a shareholders' agreement with Metrosphere Sdn Bhd to develop a four megawatt (MW) mini hydropower plant in Sungai Tersat, Kuala Berang in Terengganu.

TNB said in a statement yesterday TNBES and Metrosphere had formed Syarikat Metrosphere Hydro Tersat Sdn Bhd on a 49:51 basis.

The hydropower station was expected to be completed by the end of 2019, it added.

TNB said the 4MW small hydropower station will raise its small hydropower installed capacity from 17.96MW to 21.96MW.

The station is expected to generate 25 gigawatt-hour (GWh) of electricity per annum, equivalent to RM5 million revenue annually. This is because

Witnessing the event are Tenaga Nasional Bhd president and chief executive officer Datuk Seri Ir Azman Mohd (left) and chairman Tan Sri Leo Moggie.*

the concession will run for 21 years for a Feed in Tariff (FiT) of 25 sen per kilowatt hour.

The joint venture also plans to seek further potential sites for small hydropower develop-

ment in Malaysia, subject to obtaining a favourable FiT scheme.
