TalentCorp, Uniten host Sector Focused Career Fair

KUALA LUMPUR: TalentCorp Malaysia Bhd has collaborated with Universiti Tenaga Nasional (Uniten) to host a two-day Sector Focused Career Fair (SFCF).

In a statement yesterday, TalentCorp said the career fair, held at the Uniten Putrajaya campus from yesterday, focused on engineering, information technology and business sectors.

The event was officiated by Minister in the Prime Minister's Department Datuk Seri Abdul Wahid Omar.

Also present were TalentCorp Chief Executive Officer Johan Mahmood Merican and Tenaga Nasional Bhd Chief Investment Management Officer Nazmi Othman.

"As the bridge between the government, business and talent, TalentCorp is taking significant steps to ensure Malaysia has the graduates and skills needed to meet its goal of becoming a high-income, knowledge-based economy by 2020.

"The SFCF is a prime example of us working closely with employers and universities to produce industry-ready graduates via three-pronged approach involving greater career awareness, industry exposure and enhancing skills for employability," said Johan Mahmood.

The career fair is participated by over 45 companies in order to reach out to undergraduates and increase their awareness on the exciting career opportunities in key sectors driving country's economic transformation. - Bernama
